WELCOME YOU TO THE LAUNCH OF

WHISPERS FROM THE BUSH

The Workplace Sexual Harassment of Australian
Rural Women

By Dr Skye
Saunders

"It tells of the stories of rural women in Australia who are faced with physical, mental and spiritual threats from male colleagues. Skye Saunders has opened a lens on an aspect of our Australian community that has received too little attention up until now. Indeed, this is an area that clearly needs further attention and funding."

- Lieutenant David Morrison AO,
Australian of the Year
